Scaling the Summit

August 5-6, 2008 | University of Denver, CO | Registration Deadline: June 30, 2008

More ...

Concurrent workshops will feature presentations from national experts on the issues of recruitment, selection, training, and retention that will inform and engage participants on evidenced-based interventions to address these issues. Interactive workshops will provide concrete tools and the latest knowledge that participants can use back at their own agency.

The Institute will be more than just an opportunity to learn, it will be a chance for participants to engage in action planning, to take the knowledge and skills learned at the event back to their own offices. Not all attendees will be there with teams, so these participants will have the opportunity to work with colleagues from other agencies or attend special sessions as well.
